

TECHNALO & GRAFCUBE RGB

The power of graphite fused with the magic of water-soluble colour

Caran d'Ache is reinforcing its Graphite Line range with a new generation of graphite. The new Technalo RGB and Grafcube RGB – named after the famous Red, Green, Blue coding system – fuse the power of graphite with the magic of colour to create exceptional effects: 2-in-1 tools that combine the qualities of a colour pencil with water-soluble lead and a graphite pencil to meet the discerning requirements of artists and creative professionals.

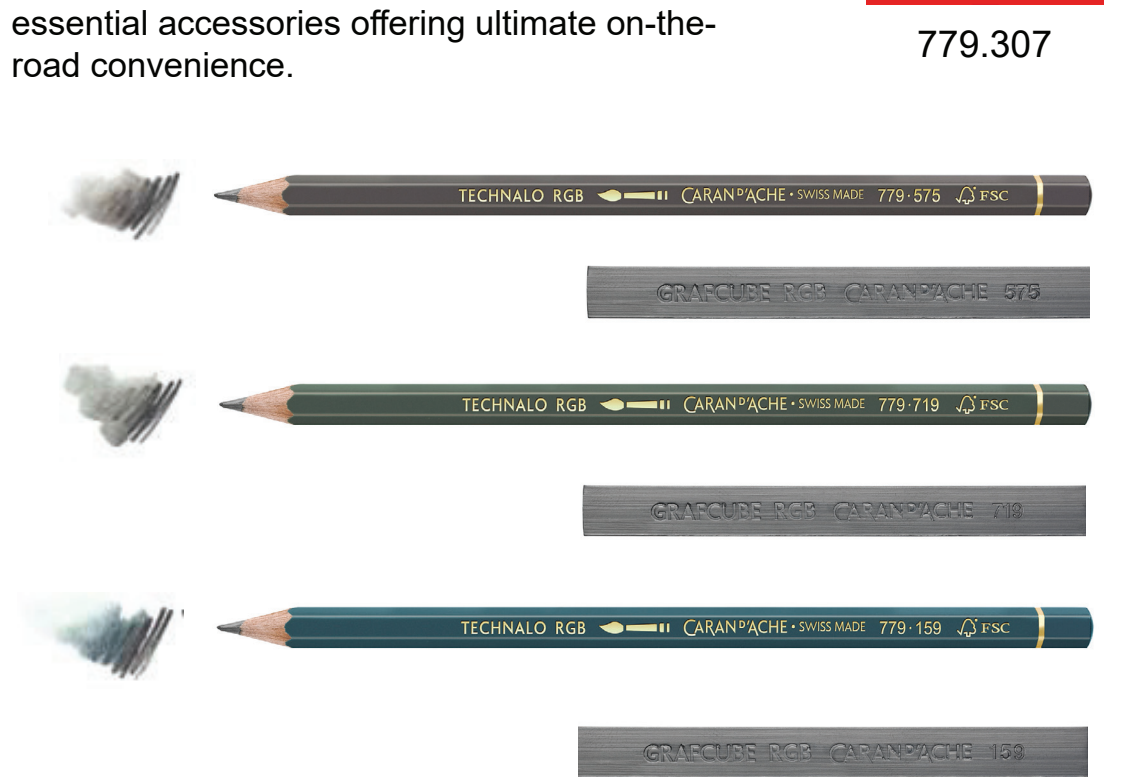

Used dry, these media retain the original properties of graphite. In contact with water, the black is tinted with subtle shades of carmine lacquer (575), dark phthalo green (719) or Prussian blue (159) for unique renderings. These innovative tools offer new creative dimensions with the promise of exceptional lightfastness.

Technalo RGB and Grafcube RGB products are available individually and in multi-technical sets that include water-colourable art tools and essential accessories offering ultimate on-the-road convenience.

GRAPHICOLOR

For taking notes, correcting and highlighting

Caran d'Ache has developed the new Graphicolor Pencils for editing your paperwork.

Graphicolor Red is a two-tone pencil with an HB graphite lead at one end, ideal for noting ideas, information, thoughts and remarks and a Prismalo red lead at the other end to emphasize corrections to be made.

The Graphicolor Fluorescent Yellow is also a two-tone pencil with an HB graphite lead at one end and a fluorescent yellow lead at the other that can be used to highlight and emphasize important information.

The ideal pencil for teachers, students and professionals looking for a simple, multifunction marking tool.

Season's Greeting Collection 2018

Unique gifts inspired by the magic of the festive season

Every year, kind thoughts and good wishes are distributed in post boxes around the world. Caran d'Ache has sought inspiration from this tradition and the vibrancy of the festive season to imagine its Season's Greetings Collection.

On this occasion, the Ecridor features an innovative guillochage inspired by the iconic chevron motif. Accompanied by its leather holder, it is the perfect gift for lovers of fine writing and exceptional objects.

For this brand-new collection, the 849 range is launching two items – the red fountain pen and the limited edition red-and-white chevron ballpoint pen, delighting design devotees or yourself!

Léman de Nuit

An anniversary edition as unforgettable as a night of celebration

Caran d'Ache is celebrating 20 years of its iconic Léman collection. For the Léman collection, Caran d'Ache has drawn its inspiration from the landscapes of Lake Geneva in the design of these writing instruments with elegant curves and vibrant colours.

To celebrate 20 years of this cult collection, Caran d'Ache presents an anniversary edition as magical as the night and as festive as the sparkling colours of a fireworks display. The four Léman de Nuit writing instruments are dressed in their finery to pay tribute to a collection that has become indispensable.

Four writing instruments: fountain pen, roller pen, ballpoint pen and mechanical pencil.

1010 Timekeeper

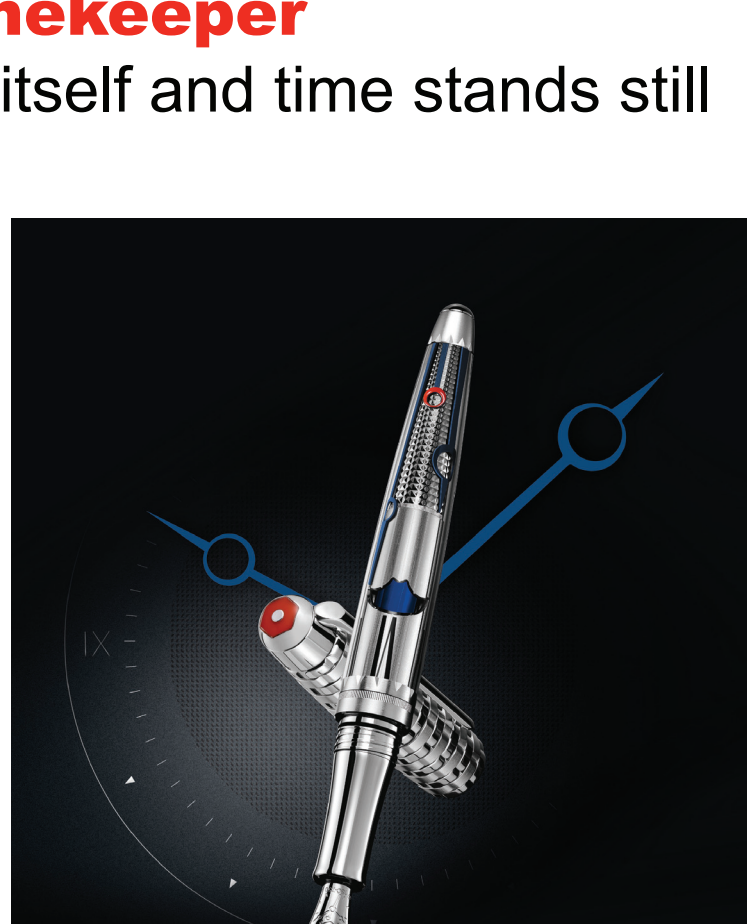

The Timekeeper reveals itself and time stands still

A Timeless Limited Edition

For this limited edition, Caran d'Ache pays homage to watch dials – repositories of the identity of exceptional timepieces. Guardians of the march of time, they faithfully accompany it down through the ages.

Journey around the dial 10 hours and 10 minutes. The ideal moment to stop the movement of the hands. The reinterpretation of the constituent elements of a watch on an original writing instrument. A journey around the dial, instantly plunging you into the world of luxury watchmaking.

When mechanical art meets technical design. Several elements of exclusive know-how are brought together in perfect harmony in this unique piece: guillochage, engraving, manual polishing, lacquering and PVD treatment.

Four writing instruments: fountain pen, roller pen, ballpoint pen and mechanical pencil.
