

Fibralo Brush

Flexible Brush Tipped Series from Caran d'Ache

186.710

**Water-soluble, washable,
long lasting & bright
transparent colors**

- Superior quality
- Washable from most fabrics
- Available in 15 colors

As part of its ongoing quest for new products, Caran d'Ache is once again demonstrating its wealth of Swiss Made expertise in the color field with this new **Fibralo Brush**. It has recently been added to the range of water-soluble pens from Caran d'Ache which enable original experimentation and dynamic lines with their fibre-tipped nibs.

Fibralo Brush is the ideal artistic tool for anyone seeking the qualities of both a fibre-tip and paintbrush. As a premium Swiss Made quality product, it enables its fans to enhance their creativity. The ink in this fibre-tip brush is **water-soluble** and therefore suitable for children aged 7+ to use independently. The fine art quality of the brush tip is supple and bends and folds before springing back to its original shape to enable the user to instantly create unlimited thick and fine lines.

The **Fibralo Brush** is available in a plastic pouch containing 10 colors or 15 colors with a zip closing system. These pouches can be taken anywhere thanks to their durable and light-weight design.

The separate colors are also available in open stock and can be merchandised in a counter display that holds 15 colors.
