Techniques:

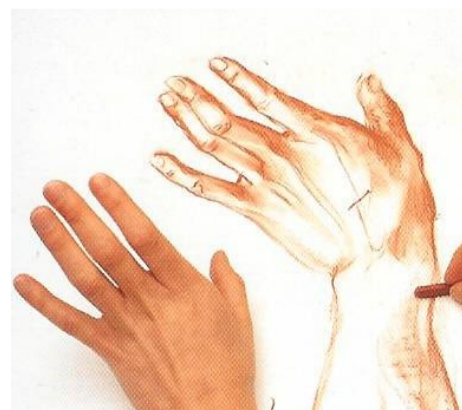

Wash techniques

Draw the subject with a Technalo water-soluble pencil, then work it with a moist brush as desired.

Sketching, smudging and dabbing

On tinted paper you can work up the subject step by step in very light or very dark blended tones using the full range of dry pastels.

Sketching and combining

Natural charcoal is ideal for treating subjects in broad terms. Sanguine provides a lively, warm approach. All ART By Caran d'Ache products can be combined as desired.
