Möbius+Ruppert

Product Catalog 2020

M+R Brass Sharpeners cannot be sold to retailers or delivered to consumers who reside within the state of California.

A SOLID TRADITION OF QUALITY

For us, the manufacture of quality products has always represented both a commitment and a goal. At Möbius+Ruppert, “Made in Germany” really means conceived, designed, and produced in Germany. That is the only way we can assure the quality of our many sharpeners and drawing instruments down to the smallest details, and make sure that we reliably deliver to the highest standards for our customers.

- Company-produced blades with an extremely long service life, corrosion protection, high HRC surface hardness and ideal pencil guidance
- Innovative use of a variety of materials: plastic, metal, wood, bio materials
- Almost all drawing instruments have accurate, long-lasting embossed markings
- All products are free of contaminants and plasticisers
- All products are available with customized designs on request

BRANDED QUALITY MADE IN GERMANY

Made in Germany

Sharpening, drawing, cutting – for perfect results every time you can rely on us: Möbius+Ruppert.

As a family-owned producer of branded goods now in the fourth generation, we have been creating innovative, design-orientated products the market wants since 1922. Whether it's a manual sharpener, reduction scale or a paper trimmer, as simple as these products may seem, our special strength lies in reinventing them constantly for our customers for almost 100 years.

Every year we dream up practical designs, use innovative materials and optimize our processes – constantly searching for new features which will make these familiar activities surprisingly simpler, easier and more ergonomic for the user.

In addition to our products, our personal discussions with customers and business partners also show that we put every last ounce of effort into our work. Sharpen your senses: This is a process that calls for concentration, sensitivity and curiosity. You can experience it all in this catalogue.

Join us on a journey through our world of products and discover sharpeners, drawing instruments and cutting machines for every age and need.

Let us inspire you!

-  GREEN OFFICE
-  KINDERGARTEN & PRESCHOOL
-  SCHOOL & HOBBY
-  OFFICE & STUDIO
-  POINT OF SALE

Good for the office, good for the planet – at Möbius+Ruppert we are constantly researching and developing ways to combine the two. Our Green editions use wood, bio material and recycled materials in their production. Once again, we see that quality products of quality materials can be made in harmony with nature.

NATURALLY WOOD

*Wood is a natural, self-renewing material.
Our natural beech wood is free of any toxins.*

Beech wood sharpener, for lead pencils, single hole, block design

Art.-No. 0400

Beech wood sharpener, for coloured pencils, single hole

Art.-No. 0405

Beech wood sharpener for extra fat coloured pencils, single hole, wedge design

Art.-No. 0406

Beech wood sharpener, for lead and coloured pencils, double hole, block design

Art.-No. 0411

GREEN LINE & ECO EDITION

Sharpeners made of organic and ecological materials, for the good of the environment. At Möbius+Ruppert we're moving ahead on sustainability and environmental protection in two ways. One is the use of renewable materials, such as the bio material we use to make our GREEN LINE Series products. The other is the use of production waste to make the QUATTRO SWING® ECO edition products.

GREEN LINE ELLIPTIC SWING

The Green Line container pencil sharpener, double hole, made of bio material, with integrated metal sharpener

Material: bio material with a biobased carbon content of 69%

Art.-No. 0938 0810

QUATTRO SWING® ECO

Container sharpener for lead and coloured pencils, double hole, made of in-house recycled polystyrene, with integrated metal sharpener

Art.-No. 0924 0650

JUST FOR KIDS

Just like crayons and pencils, sharpeners for preschoolers and kids in kindergarten must meet special requirements. Möbius+Ruppert does this with sharpeners that are just right for children.

CLEANLY SHARPEN WAX CRAYONS

Their soft texture and intense colours make wax crayons ideal for small children. However, they lose their point quickly and then give only a broad stroke until an adult resharpens them. Now young artists can sharpen their crayons themselves. This sharpener is designed especially for wax crayons and makes resharpening child's play. It includes an adapter to fit the opening to the thickness of the wax crayon.

WAXI

Sharpener for wax crayons, single hole, with integrated point shaper and adapter for different diameters

Art.-No. 0342

TOP TRIO SWING®

Container sharpener for pencils and crayons, three hole, with integrated plastic sharpener, twist closure

Art.-No. 0959

Sharpener for lead and coloured pencils, double hole, block design

Art.-No. 0332

ERGONOMIC AND PRACTICAL

Möbius+Ruppert offers sharpeners specially designed for sharpening different diameter coloured pencils, easily yet precisely.

THREE IN ONE

The sharpener for pencils in three different diameters for sharpening all normal lead, coloured and jumbo pencils.

Twist closure

SPACESHIP

Three hole container sharpener for lead, coloured and jumbo pencils, twist closure with extra marking for lead and coloured pencils, with integrated plastic three hole sharpener, ergonomic shape

Art.-No. 0969

TRIO SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener

Art.-No. 0958

TRIO SWING®

TRIO SWING® is also available as a single hole with large diameter sharpener

Art.-No. 0957

FOR EXTRA THICK COLOURED PENCILS

We developed these sharpeners for XXS artists with XXL coloured pencils: Small and compact for pencil cases or with ergonomic shaped shavings collector. A specially designed cone sharpens the lead to a stable, compact point.

MAXI

Sharpener for coloured pencils, wedge design, for extra fat pencils

Art.-No. 0316

SPACESHIP 2

Container sharpener for extra fat coloured pencils, single, integrated plastic sharpener, sliding safety closure

Art.-No. 0967

SCHOOL & HOBBY

Have fun getting it done – that's what matters for school and hobbies. And that's exactly what we encourage, with clever products, a wide variety of materials and surprising designs. Take your inspiration from us and invite your customers to enter a world of colours, shapes and possibilities they never dreamed of.

RONDO SWING®

Container sharpener for lead and coloured pencils, double hole, with integrated metal sharpener and folding closure, extra large shavings container

Art.-No. 0922

SLENDER WITH ERASER

A separate compartment keeps the integral eraser safe from lead dust – an easy way of ensuring clean, neat drawings.

STARDUST

Container pencil sharpener, single hole, with integrated metal sharpener and eraser, sliding closure prevents shavings from falling out, flat, compact shape

Art.-No. 0955

Top of trend, in a selection of today's colour combinations – **NEO LIGHT** and **TRIO SWING®** combine form and function. Full-featured, with transparent flip top, integrated metal sharpener and two hole sizes.

NEO LIGHT

Container sharpener with flip top for lead and coloured pencils, double hole, with integrated metal sharpener

Art.-No. 0902

TRIO SWING®

Container sharpener with flip top for lead and coloured pencils, double hole, with integrated metal sharpener

Art.-No. 0954

TOP UNO & TOP DUO

Our two top sellers with high-quality integrated metal sharpeners and the low-cost alternative with built-in plastic sharpener come in contemporary and fresh colours.

TOP UNO®

Container pencil sharpener, single hole, with integrated metal sharpener, closable

Art.-No. 0311

CLASSIC UNO

Container pencil sharpener, single hole, integrated plastic sharpener with injection-moulded blade, closable

Art.-No. 0333

CLASSICS AND SPECIAL MODELS

The hallmark of our products is quality. For almost 100 years we have been demonstrating this with our classics. As a company that looks to the future, we also offer special products – with a true instinct for the user – Made in Germany!

The advantages of the 3in1 Xtreme: small and handy, they work just as well as bigger sharpeners. Xtreme protect the pencil tips; they can even be used as a pencil extender. They are practical, clean, and – in combination with the elegant pencil with eraser tip – always ready for use. Suitable for standard pencils with diameter of 7.45 ± 0.1 mm.

S

Xtreme

Pencil sharpener-cap, single hole. Can be used as a pencil extender and as a practical protector cap

Art.-No. 0392 0050
