## GRAFWOOD 15 PC Metal Tube Set

To complete the Graphite Line range, Caran d'Ache offers an assortment of 15 GRAFWOOD extra-fine graphite pencils in a practical round metal tube. This selection is balanced between soft (9B, 8B, 7B, 6B, 5B, 4B), medium (3B, 2B, B, HB, F) and hard cores (H, 2H, 3H, 4H), which enables artists and creative professionals to explore all shades of black.

- 9B to 4B: Extra-fine graphite pencils allowing uniform darkening of large surfaces for regular and intense line drawing.
- 3B to F: Extra-fine graphite pencils for hatching and superimposing techniques.
- H to 4H: Extra-fine graphite pencils for the drawing of fine and extra-fine lines that are both intense and uniform for technical drawing and scientific illustration.

## GRAFWOOD 6 PC Metal Box Set

Caran d'Ache offers an assortment of 6 GRAFWOOD graphite pencils in a durable hinged metal box. This selection is balanced between soft (9B, 7B, 5B, 3B) and hard leads (HB, 2H), enabling artists and creative professionals to explore all shades of black.

Due to the selection of the very best raw materials, the GRAFWOOD leads are composed of pure extra fine graphite and clay producing a unique softness that artists' love. The metal box is light weight, easy to carry and protects the pencils from damage. The 6 pc metal box set is a useful and practical gift for students and professionals.

Box Texture Detail

## Techniques:

### Extreme contrast

From the soft defined lines of hard grade pencils and sticks to the rich depth of 9B you can create extreme contrast and control the softness of the media with an artists' stump.

### Feel the expression

A feeling of pure sensuality in the hollow of your hand as the raw material brings forth the full character of shadow and light before your eyes.
